

EURO  BASTON

Eurobastón S.L. Is a dynamic and constantly growing company with over 25 years of experience in the manufacturing sector of medical devices class I.

More than 2,000,000 crutches manufactured for the national and international market guarantee us.

We have a wide range of products for geriatrics, orthopedics and pharmaceuticals that are marketed through our wide portfolio of clients (distributors and wholesalers), being leaders in the manufacture of European Crutch nationwide.

We have the latest developments in technology and modern production methods with highly qualified personnel.

Our products are approved by the Ministry of Health and consumer licensed manufacturer of medical devices nº 4643-PS.

Products that meet the requirements set by the European Economic Community in the field of medical devices Class I.

Currently we are focusing on the international market, mainly in Europe, Africa and Latin America, where there is great demand for these products aiming our offer to large distributors, wholesalers and governments of different countries that require high quality products at competitive prices.

As manufacturers, we can make changes in all our products request (different qualities, sizes, designs, etc.).

We manufacture products with their own brand, feel free to inquire minimum volumes and conditions.

#### **Mission**

Our mission is to seek business opportunities for our products both national and international.

#### **Vision**

Our vision is to be a reference brand in the field of orthopedic devices both national and internationally.

#### **Goals**

Our goal is to increase the competitiveness and positioning of the company in the market.

## Clan

05050

Safety Pin.

## PVC Ferrule

5100N18

Made of PVC anti-slip 18 mm.  
It is recommended replaced by wear.

# Collars

## Polyethylene Collar

03010

To assure lightness and strength, perforated in order to guarantee comfort and hygiene. The lower and upper edges are lined with soft rubber and artificial leather, fastened with elastic tape.

**INDICATIONS:** Light or moderated cervical sprains without stability, soft areas traumatism and other light cervical injuries, rheumatic processes (inflammatory or degenerative).

**COLOUR:** ○

**HEIGHT:** 8-10 cm (adjustable).

**SIZE:**

**S:** 44 cm length.

**M:** 48 cm length.

**L:** 53 cm length.

**XL:** 57 cm length.

**XXL:** 62 cm length.

## Foam Collar

03030

Collar whose base is a polyurethane foam D30 inside and outer tubular cotton, fastened with elastic tape.

Anatomically shaped.

**INDICATIONS:** Light or moderated cervical sprains without stability, soft areas traumatism and other light cervical injuries, rheumatic processes (inflammatory or degenerative).

**COLOUR:** ●

**HEIGHT:** 9 cm.

**SIZE:**

**S:** 40 cm length.

**M:** 44 cm length.

**L:** 49 cm length.

**XL:** 54 cm length.

**XXL:** 59 cm length.

## Semi-Rigid Foam Collar

03035

Collar whose base is a polyethylene foam uncrosslinked tubular inside and outside cotton, fastened with elastic tape.

Anatomically shaped.

**INDICATIONS:** Light or moderated cervical sprains without stability, soft areas traumatism and other light cervical injuries, rheumatic processes (inflammatory or degenerative).

**COLOUR:** ●

**HEIGHT:** 9 cm.

**SIZE:**

**S:** 40 cm length.

**M:** 44 cm length.

**L:** 49 cm length.

**XL:** 54 cm length.

**XXL:** 59 cm length.

## Mentalis Support Collar

03040

Collar whose base is a polyethylene hemming and padded with soft rubber and artificial leather, fastened with elastic tape with support for chin on top.

**INDICATIONS:** Light or moderated cervical sprains without stability, soft areas traumatism and other light cervical injuries, rheumatic processes (inflammatory or degenerative).

**COLOUR:** ○

**HEIGHT:** 8-10 cm (regulable).

**SIZE:**

**S:** 44 cm length.

**M:** 48 cm length.

**L:** 53 cm length.

**XL:** 62 cm length.

## Collar Philadelphia

03050

Collar whose base is a polyethylene foam with a front plate tracheotomy hole and a rigid back plate with velcro closure system.

**INDICATIONS:** Indicated in injuries, sprains, bruises and tracheotomy. Immobilization post-surgery.

SIZE: S / M / L | COLOUR: 

## Collar Philadelphia with Trachea

03060

Collar whose base is a polyethylene foam with a front plate tracheotomy hole and a rigid back plate with velcro closure system.

**INDICATIONS:** Indicated in injuries, sprains, bruises and tracheotomy. Immobilization post-surgery.

SIZE: S / M / L | COLOUR: 

# Slings

## Shoulder Immobilizer

02145

**Closed sling with shoulder immobilizer**, made of padded cloth allowing for the adherence of Velcro on the entire surface. It may be adapted to patients of all ages, and may be used for both left and right sides.

**INDICATIONS:** Dislocation of the shoulder and collarbone, inflammatory processes which require restraint, clavicle and humerus fractures, holding the arms in casts, sprains and dislocations of the upper limb.

Only one size (200x40x350 mm) | COLOURS:
